Down from \$45 per m2

Hybrid flooring is rigid floating floor product that combines the best attributes of laminate and vinyl.

The high-density core crafted from layers of materials is both scratch and stain resistant. This flooring is praised for its durability and is available in a wide range of colours and designs to mimic hardwood and tile.

If you love the look and feel of real timber flooring but are worried about the effort that goes into caring for hardwood floor, take a look at what some experts are calling, "the flooring of the future" – hybrid flooring.

This evolution in flooring combines the aesthetic beauty of timber floors with the best characteristics of laminate and vinyl flooring and can be used in all areas of the home.

At Carpet Court, we offer a beautiful selection of hybrid flooring in a wide range of colours, to suit all styles of Australian homes.

With so many options, it can be difficult to pick the perfect match. You will need to consider some important factors before making a final decision.
